newest joint efforts not only afforded opportunity for some plain and fancy thinking among those who are so inclined, but gave one of the most delightful evening's entertainments that has been presented in Washington for many months—probably as delightful as was ever presented here. "The Legend of Leonora" is a genuine farcical satire on modern society. As a writer of human things Mr. Barrie naturally turns to the law as a most inhuman thing upon which to base his satire, because the law was invented to protect human society from itself. But he has not been satisfied to reserve the barbs of his wit solely for the law—woman, social customs generally, and a host of other things came in for attion.

Leonora is a mother of seven children. A regular human mother, who is more interested in her children than anything else although she is somewhat concerned in pushing the suffrage cause, is a clever dinner guest, a delightful dancer and a lot of other things an accomplished and socially possible woman should be. Assisting Mr. Young in the fun-providing business was Maxifeld Moree, as Bigredon, a promoter, and Maurico Cass, as Philibert, proprietor of the Little Cafe.

The "Six Belles of Hungary" made up a special feature of the chorus.
